

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## P R E F A C E .

In presenting our third annual volume, custom has made it imperative that it should be introduced by a few words from the publishers.

It will be found that although we are a few days later in our issue than last year, the work has been pushed forward with all proper expedition; indeed we would have preferred to have spent a week longer in the necessary revision had it been compatible with our assurances as to the time of publication.

In taking the list of names unusual care has been bestowed, and gentlemen competent to the task have been employed. The First and Third Wards have been taken by Mr. J. R. WILLIAMS, in conjunction with Mr. J. CLEMENT, who has had the general supervision of this branch of the work; the Second Ward by Mr. H. DUGLAP, the Fourth by Mr. JACOB KRETTNER, and the Fifth by Mr. H. W. HULBERT. We have every reason to believe their labors have been faithfully and accurately performed. In the Fourth Ward, particularly, we think a great increase of names will be found; Mr. KRETTNER, one of our oldest resident German citizens, has bestowed much time and attention, and a large addition to the German names will be noticed.

A new feature will be observed in the arrangement of our advertisements—they will be found alphabetically arranged after their appropriate letter, and a copious index, referring to the *business* and the names will be found in the first part of the Directory.

At the end of the work will be found the Cards of many of the principal Wholesale Houses in the City of New York, and some of the prominent Hotels in that City—an index of which will also be found at the first part of the volume.

We have also taken the pains to arrange an alphabetical list of all the Physicians and Nurses resident in the City—it is to be regretted that the latter list is not more full and complete—but for some cause we cannot divine, there seemed to be a hesitancy on the part of many in giving their occupation. To the stranger certainly such a list is invaluable in time of sickness, and our old residents will doubtless find it useful.

Our tables of statistical matter, most of them compiled for the Commercial Advertiser, will be found more extensive than usual—the space heretofore occupied by an historical sketch being fully occupied by matter which will be found useful and interesting.

The tables of vessels, steamers, &c., owned and employed on the Lakes, made up with great care by Capt. E. P. Dora, of the Mutual Insurance Co. of this City, for the Commercial Advertiser, will be found useful both for reference and preservation.

We shall continue our annual issue, and hope so to improve upon each publication as to merit and receive a substantial consideration therefor. It is a notorious fact that hitherto no one has engaged in a similar publication, without having been subjected to pecuniary loss. This has arisen perhaps from two causes, first in the early days of such a publication the population being comparatively small, but a limited number were needed, hardly sufficient to pay the expense: now, with a population of over fifty thousand this reason can hardly be put forth with propriety—and should it still exist, the cause can only be assigned to a too great prevalence of the system of *borrowing*. We have this year placed the names of subscribers to our Directory in capital letters, and our citizens can judge for themselves whether we have such a number as the city of Buffalo should afford. The labor and expense of publishing a work of this kind annually, is necessarily great, and it is only by a liberal encouragement a good and reliable work can be obtained.

We would again press upon the public and householders particularly the necessity of giving accurate and copious information to our collectors. We regret to say that in some cases there appeared to be an unwillingness on the part of many housekeepers, to give that particular information so necessary to a correct directory. Some would give merely the initials, and in some instances we found boarding housekeepers who actually could not or would not furnish the first names of boarders.

The arrangement of names is believed to be more perfect in alphabetical order the present, than any previous year. Persons looking for any particular names will bear this in mind—and in searching for any particular individual see that you have the proper spelling. For instance, you will find *Smith*, *Schmidt* and *Smidt*; *Weir*, and *Ware*; *Weis* and *Weiss*; *Welsh*, *Welch* and *Welsch*; and numerous other similar instances.

Next year we hope to present a still further improvement on the present volume, which it will be perceived is extended some sixty pages over the last year's work.

This Company was organized Feb. 26, 1848. The Gas Works are located on Genesee street near the Erie Canal. The ground was broke for the erection of the buildings on the 25th of May, 1848, and the works went into operation on the 3d of November following. They are of a model character, embracing all the late improvements in the mechanic arts touching such structures, and are surpassed by no works of the kind in the United States.

From the annual report of the Board of Directors, we gather the following brief summary of the operations of the Company:

The following is the account of the street mains already laid:

|                    |             |
|--------------------|-------------|
| 10 inch pipe,..... | feet, 3,300 |
| 6 " .....          | " 6,500     |
| 4 " .....          | " 7,560     |
| 3 " .....          | " 11,200    |
| 2½ " .....         | " 1,100     |
| 2 " .....          | " 378       |

Total number feet,..... 30,038

The cost of this, including all necessary drips, branches, syphons, excavating, refilling, and paving streets, was \$48,730 37.

The tabular statement of the condition of the Company is as follows:

|                               |            |
|-------------------------------|------------|
| Real estate at station,.....  | \$9,619 67 |

| Street mains,.....            | 48,730 37  |
| Service pipe, meters, &c..... | 5,095 32   |
| Incidental construction,..... | 1,263 13   |
| Hospital street lot,.....     | 6,881 58   |
| Tools, &c.....                | 418 85     |

\$162,161 08

The amount of gas manufactured since the commencement of the works, has been 3,728,366 cubic feet, at a cost of \$4,723 73. The receipts for gas sold have been \$8,118 26.

The Company commenced with the manufacture of about 12,000 cubic feet of gas per day, which has been increased to 30,000 feet. And so extensive has been the call for the extension of the pipes into localities not now supplied, that the notice required by law has been given for an increase of the capital stock of \$25,000 for this purpose.

## TONNAGE OF THE LAKES.

Whatever be the designation which the philosopher, in his abstractions, may apply to the present age, it may well be called, in a mercantile point of view, the age of enterprise. The great West has now a commerce within its own limits nearly as valuable as that which floats between the United States and Europe. Leaving the Western rivers out of consideration and confining ourselves merely to the Lakes we find a tonnage enrolled and licensed at the several American ports embracing 95 steamers, 45 propellers, 5 barks, 93 brigs, 676 schooners and sloops, making an aggregate of 153,426 62 tons. The history of man does not exhibit a spectacle of such rapid advancement in population, wealth and industry—such energy, perseverance and enlightened public spirit on the part of individuals as is exhibited in the progress of the Western people. In 1836 the first shipment was made from Grand River, Michigan, in the brig *John Kenzie*, R. C. BRISTOL, master, now a forwarding merchant at Chicago, which consisted of 3000 bushels wheat. The large number of steam and sail vessels which are appended are but the successors of others which have gone before them, some by decay and many by perishing from the want of adequate harbors to protect them during violent storms. Notwithstanding the immense loss of life and property, our people have continued to encounter obstacles from which a less resolute body of men would have shrunk in despair.

The application of steam power to the purposes of navigation, forms the brightest era in the history of this country. It is that which has contributed more than other causes to the rapid growth of our population and the almost miraculous development of our resources. In the arrangement of the first class steamers plying on the western lakes every resource of naval architecture has been put in requisition in their construction, and safety for life and capability for speed has been secured in many in the greatest perfection. A few short years have witnessed the bark canoe displaced by a fleet superior to the commerce of many nations, and the same lapse of time will find the country fully developed—agriculture in its highest state of perfection, a region rich in treasures of iron, lead, copper, coal, and various other products of the mine yielding rich rewards, and the broad expanse of the lake region whitened with the sails of a gigantic commerce—for as yet we are but in our infancy.

The annexed list comprises all the vessels of all classes : steamers,

propellers, barks, brigs, schooners, sloops and scows enrolled on lakes Michigan, Huron, Superior, St. Clair, Erie, Ontario and Champlain, now in commission, as obtained from the different Custom Houses herein named.

## OPENING OF LAKE ERIE.

### COMMENCEMENT AND CLOSE OF NAVIGATION ON THE ERIE CANAL FOR A SERIES OF YEARS.

The annexed table exhibits the date of the opening of the Lake, and the time of commencement and close of each navigable season of the Canal, from 1827 to 1849, inclusive. In 1846 the ice went out of the Canal on the 14th March, and the steamer *United States* passed through for Detroit from Buffalo on Thursday, April 2d. There was no arrival at this port, however, until Saturday morning, the 4th April, when the steamer *John Owen*, followed by the propeller *Phanix*, reached here from the west. The first sail vessel which made her appearance here was the schooner *Lumberman*, from Erie, laden with coal. She arrived here on the 11th April.

The winter of 1847 was the mildest experienced in this quarter for many a year. On the 8th of February, the steamer *United States* left this port for Cleveland, and reached that place the following day. She made several trips between Cleveland and Detroit, and returned here on the 26th February.

The *States* again left for the west a day or two afterwards, and reached Grand River on the 3d March. On the 25th of March she again returned to this port, and on the following day the steamer *De Witt Clinton* and propeller *Manhattan* also reached here, the former from Monroe, the latter from Detroit. Steamers and propellers continued then to arrive and depart daily without experiencing any difficulty, but navigation was not free for sail craft until April 9, when the schooner *Reindeer*, followed by the schooners *Patrick Henry* and *Sea Gull*, and brig *Columbia*, made this port :

### USEFUL TABLE FOR EXPORTERS.

For the purpose of enabling our readers to see at a glance the prices which they can afford to pay when purchasing for a foreign market, we avail ourselves of the following table prepared some weeks ago by the *Rochester Advertiser*. The dealer, by examining the rates of freight as quoted from day to day in market reports, the prices of corn and wheat in New York, and the prices in Liverpool, as reported from time to time by the steamers, may ascertain the profit or loss on shipments at current rates. If desirous of purchasing at the west, for exportation, the same table will enable him to know precisely what he can afford to pay for the commodity and its transportation.

In order to cover costs and charges, flour and wheat must be bought in New York, and sold in Liverpool at the following rates :

ALBANY, April, 1849.

STATE OF NEW YORK, CANAL DEPARTMENT.—I certify the foregoing to be a correct copy from the minutes of the Canal Board.

FRANCIS H. RUGGLES, Auditor.

## CANAL ORGANIZATION.

### COMMISSIONERS OF THE CANAL FUND.

The Fund Commissioners have the care and management of the *Revenues* of the canals, after their collection, and of the canal debt.

George W. Patterson, Lieutenant-Governor,  
Christopher Morgan, Secretary of State;  
Washington Hunt, Comptroller,  
Alvah Hunt, Treasurer,  
Ambrose L. Jordon, Attorney-General.

### CANAL COMMISSIONERS.

The Canal Commissioners have the general charge of the *Public Works*, of the construction of new canals, and through the Superintendents, of the repairs of the completed canals.

Nelson J. Beach, Albany, in charge of Division No. 1, viz: Erie Canal from Albany, including Albany Basin, to the West side of the Oneida Creek Feeder; Champlain Canal and Glen's Falls Feeder and Pond above Troy dam; Oneida Lake Canal and Feeder; Black River Canal and Feeder—271 miles.

Charles Cook, Havana, in charge of Division No. 2, viz: Erie Canal from West side of Oneida Creek Feeder to East bounds of Wayne County; Navigable Feeders; Oswego Canal; Cayuga and Seneca Canal; Chenango Canal; Seneca River Towing Path; Oneida River Improvement; Chemung Canal and Feeder; and Crooked Lake Canal—305 miles.

Jacob Hinds, Hindsburgh, in charge of Division No. 3, viz: Erie Canal from East Bounds of Wayne County to Buffalo; Genesee Valley Canal navigable; Genesee Valley Canal not navigable—272 miles.

### STATE ENGINEER AND SURVEYOR.

Charles B. Stuart, Albany, the State Engineer and Surveyor, has the general supervision of the Engineer Department.

### THE CANAL BOARD.

The Canal Board consists of the Commissioners of the Canal Fund, the State Engineer and Surveyor, and the Canal Commissioners. Meets at the Canal Department during the sitting of the Legislature—fixes the rates of tolls, appoints the Collectors of Tolls, Superintendents of Repairs, Weigh Masters and Inspectors, directs extraordinary repairs, hears appeals from the Canal Appraisers, makes extra allowances to contractors, remits penalties, and regulates the police of the canals, &c.

### CANAL DEPARTMENT.

Rooms in the State Hall, in which the business of the Fund Commissioners and the Canal Board, and the business of the Auditor of the Canal Department, is required by law to be transacted.

Francis H. Ruggles, Auditor, appointed by the Fund Commissioners—invested with the powers and duties formerly belonging to the Comptroller, in relation to the canals—*ex officio* Secretary of the Commissioners of the Canal Fund and of the Canal Board.

### CANAL APPRAISERS.

They appraise the damages to individuals growing out of the construction of the canals. Office, Albany, State-Hall.

David H. Abell, Albany.

Gideon Hard, Albion.

Elihu L. Phillips, Syracuse.

**BUFFALO.**

This article was constructed in consequence of a suggestion from the American Institute, that a simple, portable and low priced Furnace was much wanted by Farmers and others for boiling or steaming food, preparing maple or beet root sugar, and for many mechanical purposes.— It is so formed that a space from one to two inches is left between the boiler and the casing that surrounds it, causing the heat in its passage to the pipe, to encircle all parts of the boiler even to its upper edge.

☞ The American Institute awarded a silver Medal, also premiums at the State and County Fairs where exhibited.

such as are adapted, and usually purchased for country sales, which they will sell on as favorable terms as any of the Eastern Houses.

Having an extensive Bindery connected with their establishment, they are enabled to supply orders for all the varieties of blank work, in the best manner, and at the shortest notice.

Officers of Banks, and Clerks of County Courts, will find our blank books equal, if not superior, to any they ever had in use, and orders by country merchants will be promptly attended to.

Particular attention will also be paid to all orders, through country merchants or by mail, for law, medical and miscellaneous books for public and private libraries, and no effort will be spared to complete all such orders on the most reasonable terms.

Country Dealers will find it to their advantage to call and examine our large stock, before making their purchases in the Eastern cities.

# SKY-LIGHT DAGUERREOTYPES.

**EVANS & POWELSON,**  
**London First Premium Daguerrian Gallery,**  
*No. 220 Main Street, Corner Swan, Buffalo.*

Awarded to the subscribers, at the late Agricultural State Fair at Buffalo, two Diplomas and two Silver Medals, for the most elegant specimens of Daguerreotypes ever shown the Society.

This is the fifth premium the subscribers have received during the last nine years, in competition with the principal artists in this country. Our pictures now stand unrivalled. We challenge comparison with any executed in this country or Europe.

Persons visiting Buffalo should not fail to call and examine for themselves. We base our reputation only upon the opinions of those who are competent judges of LIGHT and SHADE.

## DR. TOWNSEND'S SARSAPARILLA.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

*This Extract is put up in quart bottles; it is six times cheaper, pleasanter, and warranted superior to any sold.—It cures diseases without Vomiting, Purging, Sickening or debilitating the patient.*

The great beauty and superiority of this Sarsaparilla over all other medicine, is that while it eradicates the disease, it invigorates the body. It is one of the very best spring and summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than 50,000 cures of several cases, of disease; at least 9,000 were considered incurable. It has saved the lives of more than 5,000 children the past season, in the city of New York alone. More than 3,000 cases of chronic rheumatism; 2,000 cases of dyspepsia; 4000 cases of general debility and want of energy; 7,000 cases of the different female complaints; 2,000 cases of scrofula; 1,500 of liver complaint; 2,500 cases of diseases of the kidneys and dropsy; 2,000 cases of gravel; 1,000 cases of the yellow jaundice; 1,500 cases of the dropsy; 8,000 cases of consumption; and thousands of cases of diseases of the blood, viz: Ulcers, Erysipelas, Salt, Rheum, Pimples on the face, Scald head, Tetters, Neuralgia, &c. &c., together with numerous cases of Sick headache, Pain in the side and chest, Spinal affections, &c., &c.

This is the most successful medicine known in diseases of the kidneys, and dropsy, and all effections of the Urinary Organs. Several thousand cases have been reported as cured when all other remedies have failed. Hundreds of cases of Fits and Nervous Diseases originating in debility, have been entirely cured, and thousands of cases of Dysentery, Diarrhœa and Summer complaint.

### THE FIRST MEN IN THE NATION.

We insert below the certificates of L. L. Van Kleeck, Esq., formerly sheriff of Albany City and County, and late of the War department at

Washington, and W. W. Van Zandt, of the Bank Department, of Albany; is any man so base to believe that such men as these would lend their names to support a worthless article, or would send forth a frivolous statement to deceive the public.

### DYSPEPSIA.

No fluid or medicine has ever been discovered which so nearly resembles the gastric juice or saliva, in decomposing food, and strengthening the organs of digestion, as this preparation of Sarsaparilla. It positively cures every case of Dyspepsia, however severe, or Chronic. If any doubt this assertion, we can furnish the testimony of some of the most respectable gentlemen in the United States, who have been perfectly cured.

*Brooklyn, March 7, 1846.*

DR. TOWNSEND, Dear Sir,—In the summer of 1845, I was attacked with a disease of the throat, chest and stomach; the mucus membrane became so affected that almost every article of food I took produced such a nausea or irritation, that it was with great difficulty that I could retain food. I confined myself almost entirely to the use of cocoa; even this I was often obliged to throw off. I can scarcely describe the horrid sensation I suffered; it appeared to me, that from the roof of my mouth to the lower part of my stomach was ulcerated, and I was apprehensive that I had not only dyspepsia in its worst form, but that I was threatened with bronchitis. The disease became so inveterate, that it produced a rupture of a small blood vessel. I was confined for several weeks, lost my flesh, and felt weak and wearied by the least exercise. At this time I fortunately saw your advertisement and recognised several names I knew to be highly respectable and entitled to confidence. I remember to have seen Mr. Van Zandt of Albany, for a number of years in very bad health. From these facts I was induced at first to procure one bottle of your valuable preparation of Sarsaparilla. In justice to you, I feel bound to assure you that I esteem it an invaluable medicine for such diseases as I have described. It has restored me to health and strength; I have used about four bottles. To test its efficacy, after using one or two bottles, I omitted for some days to take it, and soon found that I required more, as the disease was not entirely subdued. I regard it as a certain cure for Dyspepsia and affections of the throat and chest; it is soothing, and operates like a charm in composing the stomach and allaying a cough. I intend in future, to keep a bottle or two on hand for the use of my family. With great regard, your friend,  
LAW. L. VAN KLEECK.

Mr. Van Kleeck was formerly Sheriff and Clerk of Albany City and county, and recently in the War Department at Washington.

*Bank Department, Albany, May 10, 1845.*

DR. TOWNSEND: Sir—I have been afflicted for several years with the Dyspepsia in its worst forms, attended with soreness of stomach, loss of appetite, extreme heartburn, and a great aversion of all kinds of food, and for weeks (what I could eat) I have been unable to retain but a small portion on my stomach. I tried the usual remedies, but they had

but little or no effect in removing the complaint. I was induced about two months since to try your Extract of Sarsaparilla, and I must say with little confidence; but after using nearly two bottles, I found my appetite restored, and the heartburn entirely removed: and I would earnestly recommend the use of it to those who have been afflicted as I have been. Yours, &c., W: W. VAN ZANDT.

### 8,000 CASES OF MERCURIAL SORES.

There are many thousands of cases which are supposed to be Secondary Syphilis, and are, in fact, only the terrible effects of using mercury to excess—making the unfortunate individuals bankrupt in character and domestic happiness, as well as suffering from loathsome and mercurial sores. Dr. Townsend's Sarsaparilla will certainly cure the worst cases of ulceration, of whatever description, and speedily eradicates Mercury from the system. Nor is it of less benefit in cases of

### HEREDITARY TAIN.

Thousands are cursed with grievous and fatal complaints, which they inherit from their progenitors. By using this Sarsaparilla, all this can be prevented, and an innumerable number of lives annually saved. It thoroughly expels from the system the latent taint, which is the seed of disease, and so takes off the curse by which the sins or misfortunes of parents are so often visited upon innocent and unoffending offspring.

### 10,000 CHILDREN SAVED.

Dr. Townsend's Sarsaparilla has undoubtedly saved the lives of more than 10,000 children the past three or four years. The two past seasons have been very fatal, especially in the City of New York to children. Yet scarcely a family that took the precaution to let their children take this Sarsaparilla in season, lost a child, as it cleansed and prepared them for the hot weather, by bracing the system. Let every family use it before the hot weather and sickly season sets in, they will then save the lives of their children. For the croup, tetter, teething, looseness in the bowels and summer complaint, it has no equal.

### 10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

It invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicines or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening towards that fatal disease, Consumption, can be entirely restored by the use of this pleasant remedy. This Sarsaparilla is far superior to any

### INVIGORATIVE CORDIAL,

as it renews and invigorates the system, gives activity to the limbs and strength to the muscular system, in a most extraordinary degree.

### 7,000 CASES OF FEMALE COMPLAINTS.

This is without dispute, the best medicine for the various and peculiar complaints, ever offered to the public. *It is never injurious and always beneficial*, especially to nervous, debilitated and delicate females. It quickens the circulation of the blood, infuses it in the extremities, and

creates new blood and life in the most feeble and prostrated. No female in delicate health, old or young, or middle aged, should neglect to take it.

### BEAUTY AND HEALTH.

Cosmetics, chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which when nature is not thwarted by disease or powder, or the skin inflamed by the alkalis used in soaps, beautifies its own production in the "human face divine," as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure rich blood to the extremities, is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not of *powder* or *soap*. If there is not a free and healthy circulation there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes that is fascinating.

This is why the southern and especially the Spanish ladies are so much admired. Ladies in the north who take but little exercise, or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

### FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhoea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.
